## POINTS ABOUT BUGGIES TO BE CONSIDERED!

**The Style!  
The Quality!  
The Price!**

The large assortment that we carry, together with the **HIGH QUALITY** of same and our **VERY LOW PRICES**, are responsible for our rapidly growing business. A large number of people are showing their appreciation of these points by trading with us, and are thereby increasing our business very materially, as well as

## Saving Themselves Money.

This last point is what touches a tender spot with most of us, but we want to say that in **NO INSTANCE DO WE SACRIFICE QUALITY FOR PRICE.**

**We Sell the  
Best Buggy Made,**

No exception, and while it may cost more than some others, it is not way up in price.

## WENT DRY.

**Bennettstown Prohibitionists  
Win Big Victory.**

**Election Saturday Results in Majority of 44 For Local Option.**

The hard fought prohibition contest in the Bennettstown district of Christian county was ended Saturday by a decisive victory for the dry side.

The vote stood 69 for license and 113 against, a majority of 44 for prohibition.

There were 203 votes in the district and only 21 failed to vote. Most of those were white people away from home. Of the colored voters about 35 voted with the dry side. The leading prohibition workers were J. R. Brame, P. E. Sherrell, T. L. Moss, M. J. Cooper, J. J. Stevenson, W. W. Thomas, J. J. Thomas, W. J. McGee, Scrogg Tuck, col., and Abram Brame, col. Rev. E. L. Roberts, of Princeton, and Rev. E. C. Leeper, pastor of the local C. P. church, conducted the speaking and Robt. N. Lander, col., and Eph Poston, col., spoke to the colored voters. The fight was waged fiercely for two weeks, with speakings every night and a house to house canvass.

The election passed off quietly, Sheriff Davis being on the ground in person.

J. J. Stevenson, Gus Miles, W. G. Fox and Jack King, col., were the officers of the election. R. T. Pace and T. L. Moss were challengers.

A committee of ladies headed by Mrs. M. S. Major, Mrs. P. E. Sherrell, Mrs. P. M. Girard, Mrs. J. J. Thomas, Mrs. W. W. Thomas, Mrs. Feize, Mrs. J. R. Brame and daughter and the Misses Stevenson worked at the polls all day, pinning on badges and pleading with the voters.

Prof. Vaughan, the colored school teacher, formed his school into a glee club and did good work for prohibition. They sang songs, recited prohibition pieces and attended many of the meetings in a body.

After the polls closed the prohibition workers sang at the polls "My Country 'Tis of Thee," and at eight o'clock at night a praise and prayer service was held at the C. P. Church. Bennettstown has been dry for 15 years. A vote was taken eight years ago and the drys won by 22 votes, just half the present majority.

Sunday night at the Methodist church in Herndon another praise meeting was held.

## INDICTED FOR MURDER.

**The Trial of Cases Set For This Week.**

The Trigg county grand jury returned two indictments for willful murder last week. One was against John S. Thomas for killing Alfred Bridges, near Maple Grove, and the other against Lee Williams, col., who, it is alleged, killed his little step child near Glenwood Mills last May.

The case against Thomas is set for trial today and the Williams case will be called next Friday.

## TAILOR'S DEATH.

**August Lamazus, a Workman With Hooser & Co.**

August Lamazus, a tailor employed by Hooser & Co., died Sunday at his boarding house on North Main street, after a brief illness, of peritonitis. He came here a stranger about a year ago. He was 44 years old. The burial took place at Hopewell Cemetery yesterday.

Ben T. Graves, son of Mr. F. P. Graves, and Garrett Salles, son of Mr. Ike Salles, of Caledonia, entered the Bowling Green Normal school Friday.

## STANLEY TO SPEAK.

**Will Open Campaign For Congress Sept. 22.**

**Nominee Has Rested up and is in a Fine Condition for the Stump.**

Hon. Owsey Stanley, Democratic nominee for congress, will open his campaign in this city Monday Sept. 22 with a speech at the Court House on Circuit Court day.

He was in the city Sunday night for a few hours and has entirely recovered from the fatigues of the recent campaign. He will make a thorough canvass of the counties of his district lying in Judge Settle's judicial district, making but a few speeches in the counties lying in Judge Nunn's district, where the result is not in doubt.

## TODD COUNTY ELOPEMENT.

**Young Couple Cross The State Line to Wed.**

Guthrie, Ky., Sept. 8.—Mr. George Horner, of Guthrie, and Miss Pearl Kidd, of near Elkton were married this morning at the former place just across the state line, an elopement being necessary on account of parental objections.

The bride is youngest daughter of Mr. Kidd and is quite popular with her large circle of friends.

The groom is a valued employee of the Cumberland Telephone Co., at Guthrie.

They will make their future home for the present with the groom's father.

## MISS BLAKEY

**Delightfully Entertains the Younger Set.**

Miss Sallie George Blakey, daughter of Dr. T. W. Blakey, entertained the Oumswet Club Friday evening at her beautiful home on South Main street. The guest of honor was Miss Mary Bronaugh, who will shortly return with Miss Blakey to New York, where they will attend school. There were about forty guests present. Miss Jeanie Graham won the prize offered in a literary contest. Refreshments were a delightful feature.

## READY FOR WORK.

**County Assessor Cook Will Begin September 15.**

County Assessor Robt. A. Cook has everything in readiness to begin taking the county assessment September 15.

The following deputies have been appointed:

District No. 1. R. M. Meacham; No. 2. S. E. Everett; No. 3. W. F. Crick; No. 4. (city) O. N. Boyd; No. 5. P. P. Martin. The assessor will be in the office at all times.

## REQUISITION PAPERS.

**Arrived and Gilmore Taken To Clarksville.**

Wm. Gilmore, who was arrested here, was wanted in Montgomery county Tenn., for murder and refused to go without a requisition. Papers were obtained yesterday morning and Chief of Police Armstrong and Officer Cravens left yesterday to take him to Clarksville.

## MISSIONARY TO TALK.

**Rev. Willingham Will Be at the Prayer Meeting Service at the Baptist Church.**

Rev. Willingham and wife, missionaries of the Baptist church to Japan, will be at the Baptist church to-morrow night at the prayer meeting service and Mr. Willingham will deliver a lecture.

**MONDAY, OCT. 6, 1 P. M.,**

**PUBLIC SQUARE, HOPKINSVILLE, KY.,  
IF NOT SOLD AS A WHOLE BEFORE.**

AGE leads us up to a decision of this kind, and it looks as if it was displaying good judgment, as we have no descendants to take up this, our line of business. We shall sell 11 head of breeding stock. There are four bulls, Prettish Prince, No. 16221, by imported British Flag, No. 130853, and three calves from three to six months old. Also 5 breeding cows, safe in calf by Prettish Prince, No. 16221, and two heifer calves, 4 and 10 months old. The older one is Minnie Archer, sired by Imp. Master Archer, who took the highest prize at the Lexington fair, 1902. The other calves are by Prettish Prince, No. 145000. All of the above cows are Bites topped, save Minnie, 33rd Duchess of Geneva, who is Rose of Sharon, topped with Scotch. These cattle are all fancy bred and of good colors. They embrace the fine strains of blood of Scotland or America. The cows are all extra heavy milkers.

**ON FRIDAY, SEPT. 26,**

**AT OUR FARM, NEAR CROFTON, KY.,**

We will sell at public auction one graded cow and calf, one mare, one black mare mule, one year-old, as beautiful as the moon on the 14th night, a few thoroughbred Poland China sows and gilts.

Also agricultural implements, household and kitchen furniture. A good Majestic Range, Stoves, Mowers, Corn Sheller, Wheat Fan, Cultivator, Harrows, Plows and Vehicles, 200 cotton grain sacks, etc.

**Terms:—**Items under \$10 cash, over \$10 note with approved security, 6 months without interest.

**M. V. DULIN,**

**CROFTON, KENTUCKY.**

Returned to Christian.

## Returned to Christian.

Miss Florence Winders, of Town Creek, Ala., has resumed her position with the family of Mr. R. T. Stowe, near Newcastle, as governess. She has filled the same position for three years. His sister, Miss Stanley Winders, also returned to Christian a few days ago, to resume her duties as governess in the family of Mr. F. C. Clardy, of the same neighborhood. This is the latter's fourth year.

## Treble Clef Club.

There will be an important business meeting of the Treble Clef Club at Bethel College Wednesday, Sept. 10th, at 4 o'clock. Every member is urged to be present.

Mr. M. Gast, of Owensboro, is visiting here.

## PILED IN A HEAP.

**Three Young Ladies Figure in a Runaway.**

A horse attached to a buggy in which three young ladies were going to the teachers' meeting at Bethel College Saturday ran away, throwing the young ladies on demolishing the vehicle. The occupants were Misses Bertha, Lillie Goode and Miss Brance. They all fell out when the runaway began escaped with only a few bruises. The buggy belonged to Mr. C. C. Cade.

## Died of Fever.

Louise, the ten-year-old daughter of Mr. M. S. Thompson, of Cadis, died Friday afternoon of typhoid fever.

## ANNOUNCEMENTS:

We are authorized to announce  
MR. W. H. C. DILL,  
Of Christian County, as a candidate for Railroad Commissioner in the First Railroad District of Kentucky, subject to the action of the State party. Election Nov. 1902.

## DEMOCRATIC TICKET

FOR JUDGE COURT OF APPEALS,  
JUDGE THOS. J. NUNN,  
OF HOPKINS COUNTY.

FOR CONGRESS,  
HON. A. O. STANLEY,  
OF HENDERSON COUNTY.

Ben Johnson, of Bardotown, owns a watch once the property of Patrick Henry, that has been in his family for 100 years.

The Breckinridge News is running a voting contest similar to the Kentuckian's to determine the most popular lady in Breckinridge county.

The surviving inhabitants are leaving the stricken island of Martique. The depopulation of the island is being seriously considered by the French government.

A tidal wave is reported from Martique that rolled high enough to sweep away the village of LeCarbet. It is said that high rolling around Frankfort has done considerable damage, by sweeping away certain boomlets.

It has been given out that the British loss in the South African war was 5,774 killed, 23,029 wounded and 386,081 deaths from wounds or disease. There were 39,081 English troops beside 52,414 native soldiers.

The Heckham colonelists ought to be given at least one more chance to horse-ride in public before going into winter quarters. Why not have them go on parade at the Louisville fair. They would draw like a porous plaster.

The Owensboro Messenger suggests that the way to stop the coming prize fight at Louisville is for the present governor to do like one of his predecessors did under similar circumstances and stop it. Woodson is evidently trying to break into the ranks of the humorists.

Capt. S. H. Ford, of Owensboro who was elected superintendent of the Confederate Home, to be opened at Pee Wee Valley in sixty days, was himself a Confederate soldier. He is the father of Editor Arthur Y. Ford, of the Courier Journal, and father-in-law of T. W. Woodson, of the Owensboro Messenger.

Miss Nora Gordon, of Owensboro, was to be married Sept. 1 to A. S. Hamilton, of Louisville, but Hamilton failed to come to time. He has since written a letter from St. Louis saying he stayed away because he was a moral and physical wreck, a victim of the morphine habit and unfit to wed the pure, sweet girl he had deceived as to his real character.

## \$100 Reward. \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address S. J. CHENEY & CO., Toledo, O.  
Sold by druggists, 75c.  
Hall's Family Pills are best.

## Eczema

Now if eczema, the skin, itches, oozes, dries and cracks,  
Don't worry, don't fret, don't despair,  
Don't worry, don't fret, don't despair,  
Don't worry, don't fret, don't despair.

The suffering from it is sometimes intense, but a few applications are sufficient to initiate, but cannot cure.  
It proceeds from various industrial or acquired poisons until these have been removed.

## Hood's Sarsaparilla

positively removes them, has radically and permanently cured the worst cases, and is without an equal for all cutaneous eruptions.

Hood's Pills are the best cathartic. Price 25 cents.

The October Delinquent is likely to attract unusual attention on account of the fine presentation of the Autumn fashions in that number. In the literary section also the interest is splendidly sustained. The second installment of Mrs. Barr's fine story takes the reader to the old town of Kirkwall, the home of Thyra Varrick, and introduces the heroine and other chief characters. The plot unfolds just enough to show the possibilities for dramatic action later on. There are two other stories, strikingly in contrast. One by Marvin Dana, with a child as the central figure; and the other an interesting picture of Western life, by Eleanor Gates. Mrs. Cook's charming description of The House that Jack and Jill Built is meeting the enthusiasm anticipated for it; in fact, there has scarcely been an article of the kind published in recent years in which the practical and the imaginative have been so entertainingly combined. A collection of Historic Ditchers, by Ada and Marie Peck, appears in this issue, and in the Athletic series there is an elaborately illustrated paper on Equestrianism, by Belle Beach, the riding mistress of New York society. Dr. Grace Peckham Murray continues her special articles on Child Training, and that on the backward child will prove helpful to every mother who reads it. For the children there are some attractive Halloween games, another natural history sketch, bright sayings and verses. With the usual departments the magazine contains a great deal of matter of interest to every woman.

Miss Fannie Shield, aged 23 and pretty, has sued a wealthy old merchant named James, who is 72, for breach of promise in Breckinridge county. James sent her word by a friend that he would like to marry her and some days later called her into his store as she was passing and asked her if she had received his message and what she would do about it. She consented and he gave her \$10 to buy a wedding ring with. In a short while the little old fellow married another girl and now Miss Shields wants \$5000 damages.

Hon. A. O. Stanley, who won his nomination for Congress in the recent primary, is strongly opposed to a State primary next year, on the ground that it would practically confine the contest to the rich candidates, or those in a position to have their expenses paid by others. He says the recent primary election in the Second district, in his opinion, cost the gentlemen who entered into it at least \$30,000. A State primary would shut out in advance every man who was not willing to spend many thousands of dollars to secure the office sought.

## COLLISION BETWEEN ENGINES

Monsters Will Clash While Going at Great Speed.

Louisville, Ky., Sept. 8.—Sure enough novelties are to be presented by the Kentucky State Fair Association at the Churchill Downs grounds in September, this statement being authorized by Secretary M. W. Neal, who says that no such old things as the "Midway" are being considered.

A contract was closed whereby on Tuesday, September 23, there is to be a collision between railroad engines of at least 200,000 pounds each. While these engines, of course, have been condemned, they are capable of great speed, and will clash while going at no less than forty miles an hour.

A special track will be constructed, a spur being necessary from the Southern railroad to get the engines into the fair grounds. They will each have a fireman and engineer, who will cause the iron monsters to go through some evolutions, then the fire box filled and the throttles thrown open, engineers and firemen will leap for safety and let the public witness what, most unfortunately,

will happen. It is a wonder that any of the engines will escape to get through alive. The chances are, at the time of collision, a thrilling explosion, if boilers burst, and certainly a wreck.

The executive committee of the State Fair association met yesterday afternoon and decided upon two special fair days, one to be "Kentucky Day," when the governor and his staff will be in attendance and the other "Louisville Day," when the mayor with the boards, not omitting councilmen and aldermen, are supposed to be in evidence.

## SHARP AT A DICKER.

The Yankee Lady Got the Best of a Grocer's Stock.

Here is one of those "Tales Worth Telling" from the Philadelphia Times which shows that some women can be just as sharp at a dicker as any man. "A brisk, sharp featured little woman, says a Kensington dealer in groceries and produce, entered his store recently and, after making some purchases of canned goods, asked for half a peck of apples, but made the condition that the apples should be those that had grown on 'branches with very dark leaves;' otherwise, she said she would not make a purchase. The grocer frankly told her that he bought apples by the lot and was not able to distinguish between those grown on one branch from those grown on another. 'Pears to me,' she snapped, 'you never lived in the country, as I did! I can tell 'em on sight.' He contemptuously waved her toward the apple barrel and told her to pick out the fruit from the dark-leaved branches. She promptly seized the measure and filled it with the largest, choicest fruit from the barrel."

## MOSCOW.

New Rank as Tenth Among the World's Populous Cities.

The population of Moscow shows a remarkably rapid increase. Within the comparatively short period of 30 years the number of inhabitants has just about doubled. At the time of the French invasion in 1812 the urban Muscovites numbered about 300,000, although the official figures were 232,000. In 1871 the official census gave the population as 692,000, in 1888 it was 768,000, and according to the reckoning now completed the historic capital contains 1,173,500 inhabitants, thus taking the tenth place among the most populous cities of the world. Moscow covers an area of 101 square kilometers or only two kilometers less than that of St. Petersburg. Area is not, however, by any means a general criterion in questions of population, as appears from the fact that whereas London, with the largest population of any city in the world, covers 303 square kilometers, New York with a population numbering more than a million less than that of the British metropolis, has a total area of 795 square kilometers. The population of Moscow is less dense than those of St. Petersburg, Glasgow, London, Berlin and Paris.—London Standard.

## Long-Lived Fish.

There are now living in the Royal Aquarium in Russia several carp that are known to be over 600 years old, and it has been ascertained in a number of cases that whales live to be over 200 years old.

## Consumption

The only kind of consumption to fear is "neglected consumption."

People are learning that consumption is a curable disease. It is neglected consumption that is so often incurable.

At the faintest suspicion of consumption get a bottle of Scott's Emulsion and begin regular doses.

The use of Scott's Emulsion at once, has, in thousands of cases, turned the balance in favor of health.

Neglected consumption does not exist where Scott's Emulsion is.

Prompt use of Scott's Emulsion checks the disease while it can be checked.

## GONE TO CARRSVILLE.

Prof. Bruff chosen Principal of the Schools at that Place.

Prof. John H. Bruff, of this county, was last month chosen principal of the Carrsville graded schools. He stood the required examination with an average of 6 per cent. higher than his predecessor.

Prof. Bruff labored hard on his father's farm, and, availing himself of the short-lived opportunities, that present themselves, he secured a good education. We recall with pleasure his record at Cumberland University law school, having taken the junior course in three months, with an average of 98 per cent. All who know John Bruff know that he is enterprising, fearless and determined. He is well recommended as an instructor and his ambition is to spend every moment of his life in the service of his country. We wish him success. A FRIEND.

## PROVIDENCE BRANCH

To Be Extended Distance of About Forty Miles.

Madisonville, Ky., Sept. 6.—The Louisville and Nashville Railroad Company now proposes to make a move that will beyond all question mean a great benefit to Western Kentucky, so it is stated, which statement comes from pretty good authority. This company proposes to extend the Providence branch of their system, which stops at Providence, through to Shawneetown, Ill., a distance of about forty miles or more. This will pass through the richest mineral and timber lands in this section, besides giving this great system a nearer course into the city of St. Louis, the point of destiny on this line. This would connect with another line belonging to the same company which leads into St. Louis, making the distance about twenty five miles less than at present.

## REPORT ISSUED.

General Condition of Crop Over State of Kentucky.

The crop report of Agricultural Commissioner Nathaniel C. Hall, issued August, showing the condition of crops up to September 1, was issued Friday. The condition of the corn crop is placed at 84 per cent, hemp 91 per cent, tobacco 77 and potatoes 84 per cent. The fall seeding of wheat is 85 per cent. of the acreage this time last year.

## Architect Long.

Architect Jas. L. Long, of Hopkinsville, was in the city Monday. Mr. Long drew up the plans and made the specifications for the residence of Mr. James Hunter on Washington street and has closed the contract with Mr. H. M. Jones to draw up the plan and specifications for the store building to be erected on the site of the building recently burned. Mr. Long is a man of ability and a more capable architect would be exceedingly difficult to find.—Princeton Chronicle.

## EXAMPLE FOR BOYS.

It Is Found in the Career of Prof. S. P. Brooks.

Rose from Section Hand on Railroad to College President by His Own Endeavors and Commandable Ambition.

From the position of section hand on a railroad, where he worked with a spade, earning 65 cents a day, to the head of an educational institution of unquestioned standing, is the novel rise made by S. P. Brooks, who has just been elected to the presidency of Baylor University at Waco, Tex. Early in his life, while he was talking early and late on the roadbed of the Santa Fe railroad, Brooks made up his mind that he was not cut out for a section hand and set out to fit himself for something better. It never occurred to him that his efforts would result any other way than successfully, and with this confidence and determination he set out to make the most of his limited opportunities. He is now 45 years old, and the predominate ambition of his life was realized when he was selected to preside over Baylor University. It was there that he first attended college, and it was largely through the influence of the faculty that he was enabled to continue the course and complete his education. Less than 20 years ago Brooks was a member of a section gang and, as might be expected when his subsequent career is taken into account, he was one of the best "hands" on the road. Whatever he undertook he did well. With his foreman he was popular. He was upright, industrious, honest and conscientious in his work, yet he was not liked by the other hands because he saved his small earnings and engaged in no pastimes of questionable propriety. During the noon hour, when his fellow-workmen were swapping yarns or playing cards, Brooks usually sought a shady spot under some friendly tree, and here

PROF. S. P. BROOKS  
(College President Who Began Life as a Section Hand)

gave himself over to study or reading. In the section-house at night, and when prevented by the weather from work on the roadbed, he gave his undivided attention to such books as he was able to lay his hands on or buy with the money he saved out of his earnings. Even the other section men gradually came to realize that this industrious young fellow was different from the rest of them, and their dislike for him finally grew into toleration, and then deep admiration. The unambitious laborers began to utilize him as a sort of bureau of useful information. He was also their supreme court, to whom all questions debated by the gang were referred for final decision.

He worked for the Santa Fe Railroad between Galveston and Brenham for a year or more, and during all this time the foreman was never compelled to close his eyes for an hour's rest. Another thing said of him is that he never lost or broke a tool or implement of any kind, and his spade was not only always in place, but as bright as a dollar and as sharp as it is necessary for a spade to be. While young Brooks was laboring on the railroad he was constantly looking forward to the time when he would be financially able to enter college. At the end of a year's service he had saved enough money for one year in Baylor University, which he entered. His disposition and habits, his evident determination to make the most of every opportunity, attracted the attention of President B. C. Burleson, the founder of Baylor in the days when Texas was a republic, and who remained at the head of the school until it had grown to be the chief section of learning in the southwest. He talked with the young man, and learned of his ambitions, and an arrangement was made by which Brooks was enabled to get through his second session at the school.

After graduating at Baylor University Prof. Brooks was a member of the faculty until two years ago, when he entered Harvard to take a post-graduate course. Prof. Brooks now ranks easily among the ripest scholars in the west. He is a fine speaker, and has won distinction as a lecturer. He speaks rapidly, enunciate distinctly and gestures with grace and force. He is easy and dignified, and his eloquence at times is impassioned. There is a degree of self-forgetfulness and earnestness in his style that causes his audience to lose sight of the man entirely and become completely absorbed in the presentation of his theme. Prof. Brooks will take charge of the institution at the close of the present term.

# Gold Dollars for 35c!

THE monopolistic tendency of the times is such that the small investor no longer has a chance to buy stock in the great trusts over the country and which pay enormous dividends. Mining, however, offers to the small investor in legitimately conducted companies that possess proprieties of merit, unexcelled opportunities for safe and extremely profitable investment. Hundreds of cases could be cited where small investments in honestly conducted mines have yielded quick and handsome profits on the investment. At one time you could have bought Calumet and Hecla for \$100 per thousand shares, now selling at \$650,000 per thousand. Did you buy Gold Coin at \$50 per thousand and which advanced to \$7,500 per thousand in less than three years? Did you buy LeRoi, Homestake, Portland, Consolidated Virginia, Lamartine or any of the hundreds of other high priced stocks at the beginning? If not, perhaps you can recall instances where friends have done so.

## The Consolidated Alpine

Of Idaho Springs, Colo., is an opportunity, not a chance; none of the above had better prospects at the beginning. Do not hold the dime so close to your eye that you cannot see the dollar that lies behind it. An intelligent investment by you shows your business sense. The only difference between you and men who have accumulated wealth is that they made their money by investing their dollars and you depend on the result of your labor or the sweat of your brow. Why not invest now? A small amount won't make or break you, and it will, without doubt, return you handsome profits on the investment.

The world famous Lamartine mine is today considered one of the greatest gold mines in the world. Our property practically adjoins theirs, their shaft house being a little less than a mile from ours. The Lamartine has produced and is still producing its millions; there is marked similarity between their vein and the Alpine. The owners of stock in the Lamartine have been made rich by its production and their stock cannot be bought for love nor money. We honestly believe the Consolidated Alpine will do just as well, if not better, or we would not have invested our own money.

The Consolidated Alpine starts off with better prospects than did the Lamartine. It has the ore, the acreage, owning nearly two miles of the famous Alpine vein and there is no doubt but what it will prove equally, if not more, successful than did the Lamartine.

## WILL SELL ONLY A FEW SHARES OF THIS STOCK!

The company will only sell a small amount of its treasury stock at 35c, because it has money in the treasury, but not quite enough to carry the underground workings as deep as we desire. Only enough of this stock will be put on the market to realize about \$10,000, and just as soon as that amount of stock is sold, the price will advance to 50c and the stock taken off the market.

Over-Work Weakens  
Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through  
your kidneys once every three minutes.  
The kidneys are your blood purifiers, they  
filter out the waste or impurities in the blood,  
if they are sick or out  
of order, they fail to do  
their work.

Kidney trouble causes quick or uneasy  
heart beats, and makes one feel as though  
they had heart trouble, because the heart  
is over-worked in pumping thick, kidney-  
poisoned blood through veins and arteries.  
It used to be considered that only urinary  
troubles were to be traced to the kidneys,  
but modern science proves that nearly  
all constitutional diseases have their begin-  
ning in kidney trouble.  
If you are sick you can make no mistake  
by first doctoring your kidneys. The mild  
and extraordinary effects of Dr. Kilmer's  
Swamp-Root, the great kidney remedy, is  
soon realized. It stands the highest for its  
wonderful cures of the most distressing cases  
and is sold on its merits.  
By all druggists in fifty-cent and one-dollar sizes.  
You may have a  
sample bottle by mail. Send of Swamp-Root,  
free, also pamphlet telling you how to find  
out if you have kidney or bladder trouble.
